## INDIGO201 Analog Output Transmitter

INDIGO201 Transmitter

### Features/Benefits:

- 3 analog output channels configurable for current or voltage output
- 2 configurable relays
- Optional LCD color display
- Wireless interface for configuration or temporary use
- Compatible with all Indigo smart probes: HMP1, HMP3, HMP4, HMP5, HMP7, HMP8, HMP9, TMP1, DMP5, DMP6, DMP7, DMP8, GMP251, GMP252, MMP8, HPP271, HPP272
- IP65 enclosure

### Summary:

Transmitter designed for use with Indigo smart probes. Transmitter to be powered by 15 ... 30 VDC or 24 VAC. Three analog output channels configurable for 0 ... 1 V, 0 ... 5 V, 0 ... 10V, 1 ... 5 V, 0 ... 20 mA, or 4 ... 20 mA. Two relay contacts. Housing is PC/ABS plastic with IP65 housing classification. Operating temperature range shall be -20 ... +60°C (-4 ... +140°F) with display and -40 ... +60°C (-40 ... +140°F) without display. Wireless configuration interface (IEEE 802.11 b/g/n compliant) accessible via smart phone or PC.
